

# Project Manager

## About us

At iopool, we aim to become the #1 pool assistant in Europe. We are digital and innovative pool tech specialists with the best customer support in the pool business.

We want to make pool care as easy as possible. We guide pool owners through from the first steps to a better understanding of their water balance.

Our long-term goal is to bring innovative solutions that aim to decrease the overconsumption of chemicals, using a more accurate dosage or developing products allowing a decrease in biocides usage.

We are a passionate and young team composed of talented people, who bring their enthusiasm in a fast-growing disruptive project.

## Who are we looking for?

We are looking for an accountable Project Manager to be responsible for all engineering and technical disciplines that our projects involve. You will schedule, plan, forecast, resource and manage all the technical activities aiming at assuring project accuracy and quality from conception to completion.

You will be responsible for monitoring the production and logistics of the EcO probes and its accessories. You are constantly looking for ways to improve the production process, in terms of costs and manufacturing quality.

You will also be in charge of two product development projects at iopool. You will be responsible for the coordination with the stakeholders of the projects, as well as the development and industrialization of these two innovative products.

## Responsibilities

- Organize and manage manufacturing workflows of the EcO probe and accessories
- Perform overall quality control of the work (budget, schedule, plans, personnel's performance) and report regularly on project status
- Coordinate internal resources and stakeholders for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Develop scopes and objective ( involving all relevant stakeholders) and a detailed project plan to track progress
- Create and maintain comprehensive project documentation
- Report and escalate to management as needed

## About you

- Master degree in Engineering or relevant field
- Proven working experience as a Project Manager
- Fluent in French and English
- You have a background in management, budgeting and analysis
- Ability to work with multiple discipline projects
- Time management and organization skills
- You should be an excellent communicator and comfortable managing multiple tasks
- You also need to be a team player and have a problem-solving aptitude

## What can we offer you?

- A great challenge in a fast paced environment
- Having responsibilities like in no other place
- A desk in our cool headquarter office at the Scientific Park, Sart-Tilman, Liège
- Possibility of working remotely
- Quality coffee, weekly team lunch and monthly team drinks
- Ability to grow with the company
- A competitive salary and package

**To apply, send your resume and a brief explanation (in French, 100 words max) on why you'd like to be part of our journey to [apply@iopool.com](mailto:apply@iopool.com)**
